

# What is **Business Networking** and what can it do for you?

Face to face networking is one of the most powerful, effective and cost efficient ways to market your business. It expands your contact list and circle of influence which can lead to an increase in business opportunities and referrals.

What one of our members has to say, "Joining Athena has been a gateway to a group of inspiring, supportive and professional women who all want to grow and develop their businesses. With the diverse companies represented, everyone's passion can shine though and be confident that being part of Athena is an informative, positive and essential business tool." *Sarah Stripe Klijn*

At Athena South East Herts and Enfield we offer networking for business women.

Choose between four well established groups that enjoy structured monthly meetings over lunch from midday to 2pm. The Potters Bar group meets on the 2nd Tuesday of the month, Enfield on the 3rd Thursday, Enfield West on the 4th Tuesday and Borehamwood and Radlett group on the 4th Wednesday.

creating connections, inspiring success

**Contact Rosy Holt** for more details or an email invitation to join us as a visitor – see if Networking the Athena way could be right for you and your business.
